**DETAILED ACTION**

1. This Office Action is in response to an Amendment filed April 18, 2007. Claims 1 - 18 are pending. Claims 1 - 18 have been examined. Claim 1 is been rejected. Claim 2 is objected to. Claims 3 - 18 are allowable over the prior art of record.
  
2. **The Examiner would like to thank the Applicant for the well-presented response, which was useful in the examination process.**

*Response to Remarks*

3. Regarding **claims 1 - 18** rejected under 35 USC § 101:
  - a. Applicant's arguments regarding a useful result for the claims are persuasive (pages 9 - 11). Upon further review and consideration, claim 14 appears to have a tangible result. However, claim 1 still appears to not produce a tangible result, as described below.

*Claim Rejections - 35 USC § 101*

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.
  
5. **Claim 1** is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Art Unit: 2123

a. Regarding claim 1, the recited simulator appears to contain abstract operations such as determining whether to apply an output to a digital circuit output state. Therefore, to be statutory, the claim must be directed to a practical application producing a concrete, useful and tangible result. The claim does not appear to produce a tangible result needed to support a practical application. The result of the claim appears to be determining whether to apply said output or said no output to said node, which does not appear to be a tangible result.

*Allowable Subject Matter*

6. Claims 3 - 18 are allowable over the prior art of record.
7. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
8. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
9. A reasons for indicating allowability of the claims was provided in previous Office Actions dated August 21, 2006 and March 21, 2006.

*Conclusion*

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
